

AWARD

AAG Honors Esri Executive Bill Derrenbacher for Lifetime Achievement

Bill Derrenbacher, Esri executive adviser, was awarded the **Association of American Geographers (AAG) James R. Anderson Medal of Honour** at the recent **AAG Annual Meeting**. The highest honour conferred by the **AAG Applied Geography Specialty Group**, the medal recognizes highly distinguished service to the profession of geography. "To be recognized by the illustrious members of the AAG is a tremendous honor," said Derrenbacher. A pioneer in geanalytics, Derrenbacher has played a significant role in the global proliferation of GIS technology. Since joining Esri in the mid-1970s, he has been a driving force in the company's incredible success. He participated in the evolution of the fundamental ArcGIS platform that is now used by more than one million people around the world. The breadth of Derrenbacher's achievements is extensive, with tangible contributions in government, science, and industry. www.esri.com

CycloMedia appoints Hans van Eijk as Global Product Strategy Director

CycloMedia, innovator in **Smart Imagery Solutions**, appoints **Hans van Eijk** to the new role of **Global Product Strategy Director**. Hans brings 25 years of experience as Product Marketeer within the broad field of Geo Information products and services. Hans van Eijk joins from Astrata Europe (formerly known as Qualcomm Enterprise Services) where he was Director Product Management responsible for telematics solutions. Prior to Astrata Hans steered Navteq (currently known as HERE, Nokia) to launching a new product in his role as Product Manager. CycloMedia CEO Frank Pauli: "Hans joins us, at a pivotal time as we have high ambitions in achieving international expansion by bringing smarter, value added imagery to the market. Hans holds a wealth of experience as product strategist and has a high level of understanding of the GEO market." www.cyclomedia.com

AWARD

Rolta's solution wins eGovernment Excellence Award 2015 in Bahrain.

Rolta has announced that its eGovernance solution implementation has received the prestigious **eGovernment Excellence Award 2015** from the **Government of Bahrain**.

The award for the best eGovernment project was won by the **Ministry of Works, Municipalities and Urban Planning ("MOW")** for their **Enterprise Asset Management System ("EAMS")** project. **EAMS** was designed, developed and implemented by Rolta who adopted an innovative approach to seamlessly integrate data pertaining to roads, drainage and government buildings in the Kingdom of Bahrain from four major repositories based on disparate technologies - **Infor, IBM, Oracle and ESRI** - around **Rolta OnPoint™**. The solution provided by Rolta addresses the management of the full life cycle of an asset covering planning, design, construction, operation, maintenance, and retirement. **EAMS** has enabled **Bahrain MOW** staff, even with minimal IT skills, to carry out routine tasks and asset performance analytics more rapidly and cost-effectively. www.roлта.com
