Bentley Systems Wins Company of the Year at 2021 Construction Computing Awards

Bentley Systems, the infrastructure engineering software company, announced that it won Company of the Year at the 2021 Construction Computing Awards. Bentley is honoured to be recognized in the construction technology sector. The company attributes its success to Bentley's **SYNCHRO software**, which offers a complete portfolio of integrated applications from field to office for **digital construction management**. Together, the applications enable teams to win and deliver heavy civil projects more efficiently by improving the use of data to optimize decision-making, resources, and profitability. www.bentley.com

RIEGL Announces Management Change To RIEGL Canada

RIEGL USA announced the new Managing Director of RIEGL Canada, **Michael Sitar**, who is also acting as Airborne Division Manager for the North American territory. Michael will be joining **Kelly Martin** who has been **Managing Director** for **RIEGL Canada** since 2019. His appointment to this position comes as Susan Licari, former Managing Director for RIEGL Canada and **RIEGL USA's Sales & Marketing Director**, passes the torch to him as she focuses on other initiatives for RIEGL USA. The RIEGL Canada office in Toronto serves as base for sales and customer support, creating the proximity to better serve the growing Canadian customer base. As a Canadian citizen, Mr. Sitar is looking forward to taking on this additional responsibility in his home territory. www.riegl.com
