Outsight Appoints New US Sales Director

Steve Ehram has joined Outsight, a provider of LiDAR software solutions, in the position of US Sales Director. Mr. Ehram brings more than 10 years of expertise in the LiDAR industry, including **ST Micro, Innovusion** and recently as a former Sales Director at **Quanergy**, a pioneer in LiDAR-based People Flow monitoring solutions. In his new role at Outsight he will expand the deployment of LiDAR Software solutions in People Flow applications in Airports, Security and Smart City markets. www.outsight.ai

PEOPLE

Paul Walker Will Be Leading TDI's Geotechnical, Geochemical, And Environmental Labs As Director Of Laboratory Operations

Paul began his career at Humble Geochemical where he was tasked with method development, instrument maintenance, and general lab and project management. He then joined Baseline Resolution where he continued developing and optimizing specialized pyrolysis and hydrocarbon separation methods for onshore and offshore petroleum systems. These specialized methods became the standard for **Baseline's Global Network of Laboratories**, ensuring that high quality and consistency were globally available within the lab network. Paul then worked with his staff to obtain an ISO-9001 certification and began establishing a PVT laboratory for the marriage of geochemical and engineering data. www.tdi-bi.com
